LANOLIN - EP

ITEM: H1005

LOT: 0120252026

Ingredients: Lanolin, BHT
Description: Anhydrous Lanolin - EP10.0

Date of Production: September, 2025
Expiration Date: September, 2028

Parameter	Unit	Min	Max	Result
Identification(A)				Complies
Identification(B)				Complies
Water-Soluble Acid or Alkaline Substances				Complies
Water-Absorption Capacity	ml	20		21.5
Acid Value			1	0.83
Peroxide Value			20	18.49
Saponification Value		90	105	97.56
Water Soluble Oxidisable Substances				Complies
Paraffins	%		1	Complies
Chlorides	ppm		150	Complies
Loss on Drying	%		0.5	0.32

Shelf life is expected to be three years from the date of production if the product is stored in the unopened original container between 15°C - 30°C, protected from light. Because this material is sensitive to oxidation, it is saturated with nitrogen and sealed with nitrogen atmosphere for protection. If containers are opened for sampling, be sure to refill atmosphere with nitrogen. Containers that have been opened should be tested at least yearly to ensure quality. Although Jedwards International, Inc. believes the above information to be accurate based on the information available to Jedwards, it is the responsibility of the customer and user of the material to perform its own investigation and due diligence prior to use to verify that the product purchased from Jedwards meets their quality requirements and is appropriate for the use to which the product is to be put. The information provided above shall be considered effective only for the lot with which the information is being provided. Use and purchase of this material is subject to Jedwards International, Inc. standard terms and conditions, which supersede any conflicting terms contained on Buyer's purchase order or any document or instrument supplied by Buyer.
